

New Hot Spot for Garland Range

Everyone's talking about Sam's Brasserie, since AA Gill listed it as a favourite place to eat shortly after the Chiswick restaurant opened.

Head Chef Rufus Wickham comments on Garland:

'The Garland range is an incredibly important piece of kit for us. I'd worked with Garland before and view the equipment as the most durable modular range on the market, in fact I'd go so far as to say it's in a different league.'

'We cook all hot menu items on the range. The menu changes twice daily so when it comes to planning I need to know the equipment is up to the job.'

Nelson Catering Equipment designed and installed the new kitchen. The lay-out works around convenient work stations for all preparation areas and boasts other Enodis equipment including Dean fryers and Delfield Sadia refrigeration.

Garland... reliability and durability in a class of its own.
